

Smooth Sailing

Ella Fitzgerald

We didn't break apart in stormy weather
We didn't run around like others do
Now we're not afraid when storm clouds gather
'Cuz we got the kind of love that'll see us though
We've got smooth sailing, sailing
Looks like every drop of rain is gone, gone, gone
Smooth sailing, sailing
And a blue sky full of rainbows from now on
We find each others arms in troubled waters
We found that's the safest place to go

From now we can laugh at troubled waters
'Cuz our roughest storms just seem to make love grow
We've got smooth sailing, sailing
Looks like every drop of rain is gone, gone, gone
Smooth sailing, sailing
And a blue sky full of rainbows from now on
We've got smooth sailing, sailing
Looks like every drop of rain is gone, gone, gone
Smooth sailing, sailing
And a blue sky full of rainbows from now on
