

Giants

Ella Henderson

I know what it's like to be falling small
In a corner with your back up against the wall
Caught up in a trap and you can't get out
I know what it is when it's hard to breathe
'Cause you turn into your own worst enemy
Blaming everything on yourself right now
And even the best get it wrong sometimes
We take a left when we should have turned right

Don't let the fear keep you from climbing
And if you fall to the ground just keep trying
Head up in the clouds, never looking down
Nothing's gonna stop us this time round
We could be giants, whoa, you and I
We could be giants, giants oh

You just walk on by when they criticise
Try to tear you apart with their dirty lies
They will never win, they don't understand
That even the best get it wrong sometimes
So don't live with regret or you'll lose your mind, yeah

Don't let the fear keep you from climbing
And if you fall to the ground just keep trying
Head up in the clouds, never looking down
Nothings gonna stop us this time round
We could be giants, whoa, you and I
We could be giants, giants oh

We stand tall like giants
We stand tall like giants
We stand tall like giants
We stand tall like giants

Don't let the fear keep you from climbing
And if you fall to the ground just keep trying
Head up in the clouds, never looking down
Nothings gonna stop us this time round
We could be giants, whoa, you and I
We could be giants, giants

We stand tall like giants
We stand tall like giants
We stand tall like giants
We stand tall like giants
We stand tall like giants
