

# Glorious

Ella Henderson

I'll keep it simple, try to explain  
But it's harder to say than you think when it comes from a dark  
place  
Like we all wanna win but life ain't a game  
So why we keep pushing and driving ourselves till we're insane

We gotta live with the choices we make  
But if we get it wrong, we can't blame no one  
When it's your sanity that's at stake  
Please don't lose your light, you'll lose your mind

We got flaws in all of us  
But that's what makes us glorious  
Time goes by in front of us  
So let's just make it glorious

I could be kinder to myself one day  
Whenever I look in the mirror I talk to my body and say  
It could be tighter and ain't it a shame  
That we struggle to see how beautiful comes in a million ways

We gotta live with the choices we make  
But if we get it wrong, we can't blame no one  
When it's your sanity that's at stake  
Please don't lose your light, you'll lose your mind

We got flaws in all of us  
But that's what makes us glorious  
Time goes by in front of us  
So let's just make it glorious

Can we quit paying attention to opinions and perfection  
Before we run out of youth?  
Oh, 'cause we got flaws in all of us  
But that's what makes us glorious, glorious, glorious

We got flaws in all of us  
But that's what makes us glorious  
Time goes by in front of us  
So let's just make it glorious

Can we quit paying attention to opinions and perfection  
Before we run out of youth?  
Oh, 'cause we got flaws in all of us  
But that's what makes us glorious, glorious, glorious
