

love you tonight

Ella Langley

One drink, what's that gonna hurt?
One dance never killed nobody
One kiss just for old time's sake
Head back to your place, hands on your body

Sounds like a good idea when I've been drinkin'
But when I sober up, I'm thinkin', "What was I thinkin'?"
Climbin' in a last-call cab with you
Doin' what I swore I wouldn't do
When the stars are out, boy, I want you to hold me
When the sun comes up, I'm leavin' even more lonely
I get high, then I'm heartbroke
Gonna love you tonight, gonna hate me tomorrow

A mistake, that's what we've always been
Foolish is how I'll be feelin'
When I wake up in your bed
All the mess in my head, starin' at your ceiling

Sounds like a good idea when I've been drinkin'
But when I sober up, I'm thinkin', "What was I thinkin'?"
Climbin' in a last-call cab with you
Doin' what I swore I wouldn't do
When the stars are out, boy, I want you to hold me
When the sun comes up, I'm leavin' even more lonely
I get high, then I'm heartbroke
Gonna love you tonight, gonna hate me tomorrow

Ooh, gonna love you tonight
Ooh, gonna hate me tomorrow
Ooh, gonna love you tonight
Know that I shouldn't, but I'm gonna love you tonight

Sounds like a good idea when I've been drinkin'
But when I sober up, I'm thinkin', "What was I thinkin'?"
Climbin' in a last-call cab with you
Doin' what I swore I wouldn't do
When the stars are out, boy, I want you to hold me
When the sun comes up, I'm leavin' even more lonely
I get high, then I'm heartbroke
Gonna love you tonight, gonna hate me tomorrow

Ooh, gonna love you tonight
Ooh, gonna hate me tomorrow
Ooh, gonna love you tonight
Know that I shouldn't, but I'm gonna love you tonight
