Ella Langley

I wouldn't smoke
Nah I wouldn't need to
When I need something to calm my nerves
Yeah I'd just hold you
Between my finger tips
Put you to my lips
And get a fix

Baby be my nicotine
My lips on a buzz smoke ring
Feels good under neon lights
A stiff drink at the end of the night
Be the thing that I crave so bad
Leave me wanting just one more drag
Take my breath make it hard to breathe
The one I want but just don't need
Baby be my nicotine
My nicotine

You'd have a warning
But I'd skip the label
So if I ever tried to quit you I wouldn't be able
I'd be addicted
Hell I'd be hooked
Cause I'm a little more bad than good
So

Baby be my nicotine
My lips on a buzz smoke ring
Feels good under neon lights
A stiff drink at the end of the night
Be the thing that I crave so bad
Leave me wanting just one more drag
Take my breath make it hard to breathe
The one I want but just don't need
Baby be my nicotine
My nicotine

(Baby baby
Baby baby...)

Baby be my nicotine

Be the thing that I crave so bad

Take my breath make it hard to breathe
