

## people change

Ella Langley

People say, "Forever"  
Hell, I said it to you  
People stay together  
Running from the truth ain't what I wanna do  
Could stay high on nostalgia, live life looking back  
We can hate it or doubt it, but it doesn't change that fact

That people change their minds, people change their hair  
People change each other out of no damn where  
It's a part of life, we can't help ourselves  
So don't be surprised when I change myself  
'Cause people change  
Woo-ooh-ooh  
People change  
Woo-ooh-ooh

People change even when you wish they wouldn't  
You learn it's out of your control  
And every time I thought I couldn't  
Holding back just take a toll  
So I go and break the mold  
I'm not where I used to be, but I'm getting where I want to go  
I don't know a lot, but I'm guessing God made forks in the road

'Cause people change their minds, people change their hair  
People change each other out of no damn where  
It's a part of life, we can't help ourselves  
So don't be surprised when I change myself  
'Cause people change  
Woo-ooh-ooh  
People change  
Woo-ooh-ooh  
People change

People say forever  
Hell, I said it to you

People change their minds, people change their hair  
People change each other out of no damn where  
It's a part of life, we can't help ourselves  
So don't be surprised when I change myself

People change their minds, people change their hair  
People change each other out of no damn where  
It's a part of life, we can't help ourselves  
So don't be surprised when I change myself  
'Cause people change  
Woo-ooh-ooh  
People change  
Woo-ooh-ooh

People change  
Woo-ooh-ooh  
Yeah, people change  
People change, yes, people change  
Woo-ooh-ooh  
People change
