

No worries, baby, I got it  
You ain't always gotta be on it  
Feeling weak, then boy, I'll be solid  
I promise  
And if I'm being honest, I'm always on your shoulder  
You're that someone when I'm breaking  
Times I barely have enough, but bae, you make it  
I admire all your efforts, all your patience  
Know this love ain't got no limit

When you're low  
Know you got a hand to hold  
Baby, I can bare the load  
Let me take the weight off your mind  
It's a give and take 'cause you do it for me  
I can't wait, go and put it on me  
Keep it real  
Baby, love is a deal

How much you got in ya?  
I'll take you out for dinner  
I'll give you a massage, I'll show you how loved you are  
I'll go above and beyond, 'cause  
Love ain't never 50/50  
It's whatever I got in me  
And in you, I got a partner, love you just how you are  
Baby, even if you only got

20 for my 80  
Ain't no maybe  
We'll make it to 100  
If I got 40 for your 60  
You'll stick with me  
We'll make it to 100, yeah, yeah, yeah

100, 100  
We keep it 100, 100  
We make it 100, 100  
Baby, we gon' leave with something, yeah  
100, 100 (Oh, we make it to-)  
We keep it 100, 100 (Oh, we going to-)  
We make it 100, 100  
Even when you ain't got nothing

And when it's bad, come through  
I'll be on your waist just like a holster do  
Hold me like the sky holds stars, I ain't never too far  
Always holding it down for you  
Let me return the favour, boy, you've done so much  
Least that I can do, you know what's up  
It don't matter what you lack, I'm picking up the slack  
Let me handle the rest, I wanna give you the best love, so

How much you got in ya?  
I'll take you out for dinner  
I'll give you a massage, I'll show you how loved you are  
I'll go above and beyond, 'cause

Love ain't never 50/50

100, 100 (Oh, we make it to—)  
We keep it 100, 100 (Oh, we going to—)  
We make it 100, 100  
Even when you ain't got nothing
