

# Dangerous

Ella Mai

I'm the type to play safe  
Always hard to make decisions, but you break me out  
I ain't never been taste but  
I bet my flavor's kinda different since you came around  
I been keeping up the pace  
All I'm tryna do is see is what you talkin' 'bout  
'Cause I know what to say  
I'ma love it either way

Mmm, your kiss, your touch  
Can't give in enough  
My care, for ya  
So deep, you know it because  
I'll be right here with your breakfast when you wake up  
And I love you 'cause you love me with no makeup  
Even if there's someone else tryna pursue it  
You the only one I'm doin', ooh, boy

That's dangerous  
There's no one else I trust  
I put my all in us  
I know the risk in love, yeah  
That makes this dangerous  
I still want all of ya  
You got me so wrapped up  
What if we're savin' love? That's dangerous

Somethin' about this feelin' so familiar  
It's like I'm lookin' at myself in the mirror  
You put the pieces of my heart back together  
You got me thinkin' 'bout forever and ever  
Dangerous  
What if we're savin' love?  
Nothing can break it up, no  
This could be dangerous

You ain't too good 'around the away  
I put in work, I love a challenge, I can break the rules  
You call me every single day  
Yeah, everybody think I'm good but I'll be bad for you  
So tell me how you wanna play  
If it's you against the world, then you know who I choose  
That's never gonna change  
That's why I love you either way

Mmm, your kiss, your touch  
Can't give in enough  
My care, for ya  
So deep, you know it because  
I'll be right here with your breakfast when you wake up  
And I love you 'cause you love me with no makeup  
Even if there's someone else tryna pursue it  
You the only one I'm doin', ooh, boy

That's dangerous  
There's no one else I trust  
I put my all in us

I know the risk in love, yeah  
That makes this dangerous  
I still want all of ya  
You got me so wrapped up  
What if we're savin' love? That's dangerous

Somethin' about this feelin' so familiar  
It's like I'm lookin' at myself in the mirror  
You put the pieces of my heart back together  
You got me thinkin' 'bout forever and ever  
Dangerous  
What if we're savin' love?  
Nothing can break it up, no  
This could be dangerous

I'll give my life, put it on the line, is that crazy?  
'Cause boys like you don't usually fall for the girls like me  
Is it hard to believe?  
You changed me, and that's crazy  
Mmm, your heart was dark, I brought the sun  
Forget the past, what's done is done  
Please know that you're the only one  
You jump, I jump, it's all for love  
I'm like the bullet to your gun  
Still feels like we have just begun  
Oh, this could be dangerous, oh, yeah

Dangerous  
There's no one else I trust  
I put my all in us  
(I put my all in us, yeah)  
I know the risk in love, yeah  
That makes this dangerous (Oh, dangerous)  
I still want all of ya (Yeah)  
You got me so wrapped up  
What if we're savin' love? That's dangerous (That's, that's)

Somethin' about this feelin' so familiar  
It's like I'm lookin' at myself in the mirror  
You put the pieces of my heart back together  
You got me thinkin' 'bout forever and ever  
Dangerous, yeah  
What if we're savin' love? (Savin' love)  
Nothing can break it up, no  
This could be dangerous
