

# Feels Like

Ella Mai

Can you do all the things you say you're wanting to?  
Keep on talking all you want but talk is cheap  
And if I'm investing my evenings on you  
Then you better fucking please me

Look into my mind  
I know what I like  
Don't you waste my time  
Oh, I

Know you really, really want it  
If I'm really, being honest  
I don't need it  
I don't want it  
Less it feels like, ooh  
Sick of every empty promise  
Baby show me, I'm a goddess  
I don't need it  
I don't want it  
Less it feels like, ooh

'Cause what's the fun in, feeling nothing  
Baby don't be so selfish I  
Know you really, really want it  
If I'm really, being honest  
I don't need it  
I don't want it  
Less it feels like, ooh

There's a difference between something you kinda like  
And something you can't get enough of  
If you follow my lead, I might just change your life overnight  
That's what a woman does

Look into my mind  
I know what I like  
Don't you waste my time  
Oh, I

Know you really, really want it  
If I'm really, being honest  
I don't need it  
I don't want it  
Less it feels like, ooh  
Sick of every empty promise  
Baby show me, I'm a goddess  
I don't need it  
I don't want it  
Less it feels like, ooh

'Cause what's the fun in, feeling nothing  
Baby don't be so selfish I  
Know you really, really want it  
If I'm really, being honest  
I don't need it  
I don't want it  
Less it feels like, ooh

Oh  
Less it feels like, ooh  
Ooh baby I  
Less it feel like  
Less it feel like, ooh-oooh

We got all night  
So take your time with me baby you know  
It's alright  
So take your time with me baby I

Know you really, really want it  
If I'm really, being honest  
I don't need it  
I don't want it  
Less it feels like, ooh  
Sick of every empty promise  
Baby show me, I'm a goddess  
I don't need it  
I don't want it  
Less it feels like, ooh

'Cause what's the fun in, feeling nothing  
Baby don't be so selfish I  
Know you really, really want it  
If I'm really, being honest  
I don't need it  
I don't want it  
Less it feels like, ooh
