

# Lay Up

Ella Mai

Roll with it all you gotta do is roll with it  
Let me into your system baby yeah, roll with it  
Said I got what you missing  
You ain't gotta go get it when I pull up with that work for you baby come get it

You been on my mind ever since  
Need to relax sit back and let it sink  
Stimulate our minds away in every kind of way  
And blow the stress away ain't gotta think

Let's take a trip up to the island and just lay up  
A private flight up for the night gon' take us way up  
Just the two of us no one else invited  
Baby jump right in  
Let's take a trip up to the island and just lay up  
Said baby you know I know how to take us way up  
Just the two of us no one else invited  
Baby jump right in

But go slow with it get a hold in it  
Don't you let me take control in it  
Take control in it  
Said you know I got that dope and the shit that go with it  
Treat my body like a boat baby flow in it, oh

You been on my mind ever since  
Need to relax sit back and let it sink  
Stimulate our minds away in every kind of way  
Come blow your stress away ain't gotta think

Let's take a trip up to the island and just lay up  
A private flight up for the night gon' take us way up  
Just the two of us no one else invited  
Baby jump right in  
Let's take a trip up to the island and just lay up  
Said baby you know I know how to take us way up  
Just the two of us no one else invited  
Baby jump right in

No rules no plans this is all for us  
Put your phone down boy ain't time to chill  
Cause I want you to, work up on this  
Turn up on this, late nights early morning  
Trip out to the island and just lay up  
Take a min out the game you the player  
Unravel me boy all these layers  
And we go at it again an hour later

Let's take a trip up to the island and just lay up, lay up  
A private flight up for the night gon' take us way up, way up  
Just the two of us no one else invited  
Baby jump right in  
Let's take a trip up to the island and just lay up, lay up  
Said baby you know I know how to take us way up, way up  
Just the two of us no one else invited  
Baby jump right in
