

Outside

Ella Mai

Been a long night
I been out with my friends
It don't feel right
I be in bed by 10
Such a strange sight
This just ain't me, oh no
And you ain't uptight
You don't give me no shit
If that phone light up
Say the word and I'll dip
Ooh, I'm outside
But this just ain't me, oh no

Ooh, I got something waiting
Blue dot, share my location
Yeah, I love the life we creating
My favourite place to stay in
Yeah, yeah
I'll say I tried
But really ain't shit for me outside
I

Let you inside
Make a house a home and hide
I'm not built for outside
Just not built for outside
Never was, never was
Never was, never was
I never was, never was
Never was, never was
I'm not built for outside
Just not built for outside (Oh, I never)
Never was, never was
Never was, never was (No, I never)
I never was, never was
Never was, never was
I'm not built for outside
