Aphrodite, hear my plea
Were you as lonely as me?
Did it make you feel more free?
Do they want me for my body?
Aphrodite, help me up
I feel jealous of someone
Not their figure or their face
But they're not in this body
Aphrodite

Lock me in your chains, I dare, I dare you
Tie me down, this way I'm aware, I'm aware, oh
I'm scared of how you prayed, just let me out my cage
Only one of us can stay
But the reaper once told me, when you go away
He would give the opportunity to let me out my cage
It didn't seem that bad at all, a simple price to pay
But when it came to pass, you'd swerve and crash
I'd be the one to blame

Aphrodite, hear my plea
Were you as lonely as me?
Did it make you feel more free?
Do they want me for my body?
Aphrodite, help me up
I feel jealous of someone
Not their figure or their face
But they're not in this body
