

## Parasite

Ella Red

I can see my corpse in reflections  
She's sitting in the corner of my eye  
Following close in my shadow, like a ghost  
From her, there's nowhere I can hide  
I can't sleep at night anymore  
The terrors take control over my mind  
Take what I want most, now my body's just a host  
I can't rid myself of this parasite

Eat me like a cannibal, cannibal  
Treat me like an animal, animal  
Feed me paracetamol, I've tried 'em all  
Empty means nothing to me  
(Where you going honey?)  
Echoes in the corridor, corridor  
Creeping like a carnivore, carnivore  
I don't know me anymore, anymore  
Hide under the sheets  
(Where you going honey?)

I can see my corpse in reflections  
She's sitting in the corner of my eye  
Following close in my shadow, like a ghost  
From her, there's nowhere I can hide  
I can't sleep at night anymore  
The terrors take control over my mind  
Take what I want most, now my body's just a host  
I can't rid myself of this parasite

Eat me like a cannibal, cannibal  
Treat me like an animal, animal  
Feed me paracetamol, I've tried 'em all  
Empty means nothing to me (I'm a parasite)  
Living in hypocrisy, hypocrisy (I'm a parasite)  
It isn't just anxiety, anxiety (I'm a parasite)  
9-1-1 emergency, help my heart, it won't stop beating
