

Dancing Underwater

Ella Vos

Sinking deeper, you let go of me
Nothing matters when you're suffering
All this pain becomes reality
We unravel

The truth comes hard
You won't believe it
And when it's dark
I hope you see it
'Cause what's the use
In tryna fight it
Anymore?

I'm fine with dancing underwater, underwater
(Hold me down)
I'm fine with dancing underwater, underwater
You know that I ain't scared to drown, go on pull me down
You know I mean it, when I say
That I'm fine with dancing underwater, underwater
(So hold me down)

At the bottom I found clarity
It took a while learning how to breathe
You can't appreciate until you need
Something fragile

The truth comes hard
You won't believe it
And when it's dark
I hope you see it
'Cause what's the use
In tryna fight it
Anymore?

I'm fine with dancing underwater, underwater
(Hold me down)
I'm fine with dancing underwater, underwater
You know that I ain't scared to drown, go on pull me down
You know I mean it, when I say
That I'm fine with dancing underwater, underwater
So hold me down

You don't have to pretend that it's over
You don't have to pretend (So hold me down)
You don't have to pretend that it's over
You don't have to pretend

I'm fine with dancing underwater, underwater
(Hold me down)
I'm fine with dancing underwater, underwater
You know that I ain't scared to drown, go on pull me down
You know I mean it, when I say
That I'm fine with dancing underwater, underwater
So hold me down
