Down In Flames

Ella Vos

Slippin' off the edge
Out of phase
Watchin' you pretend
We're okay

Every weekend we hitchhike to hell
And you only think 'bout yourself

If we're going down, we're going down in flames
Flyin' round the highway, tryna get away
Don't speak, I'll try to save us from ourselves
If were going down, we're going down in flames
Going down in flames

Burning on your tongue
Every minute
We were too young
Couldn't see it

Every weekend we hitchhike to hell
And you only think 'bout yourself

If we're going down, we're going down in flames
Flyin' round the highway, tryna get away
Don't speak, I'll try to save us from ourselves
If were going down, we're going down in flames
Going down in flames

Do you dream about me
Looking to buy gold
Do you dream about me
About me, about me

If we're going down, we're going down in flames
Flyin' round the highway, tryna get away
Don't speak, I'll try to save us from ourselves
If were going down, we're going down in flames
Going down in flames
