

# Dreaming, Backwards

Ella Vos

Woke up early, when our room grew cold  
Found the answer, time was moving slow  
Oh, with all the windows closed  
Always coasting, been on cruise control  
Flipping quarters, never sure when to go  
Oh, afraid of what I know  
'Cause the lights just won't stay on

I know where you're at, nowhere left to run  
Wasted all our youth, scared of being young  
It's like dreaming backwards  
Like dreaming backwards

Looking for the rain, when the sun is out  
Missing yesterday, instead of living now  
It's like dreaming backwards  
Like dreaming backwards

Sleeping later with the sun so far  
Drifting further, tryna get back to the start  
Oh, before I fall apart  
Lost a decade riding in a car  
Turning yellow, stare between the bars  
Oh, reaching into the dark

I know where you're at, nowhere left to run  
Wasted all our youth, scared of being young  
It's like dreaming backwards  
Like dreaming backwards

Looking for the rain, when the sun is out  
Missing yesterday, instead of living now  
It's like dreaming backwards  
Like dreaming backwards

Always chasing, never make it  
No tomorrow, tryna fake it  
Waiting, waiting, troubles all around me now

I know where you're at, nowhere left to run  
Wasted all our youth, scared of being young  
It's like dreaming backwards  
Like dreaming backwards

Looking for the rain, when the sun is out  
Missing yesterday, instead of living now  
It's like dreaming backwards  
Like dreaming backwards
