Empty Hands

Ella Vos

Take my money back [?]
Throw away flowers, tryin' so hard to win
Bruisin' needles, tell me another way
Out of reasons, keepin' you away

It's behind me now

Why do I feel that you never understand
Tell me the point in makin' any plans
'Cause everything in love is killin' me
Tryin' to learn how to live with empty hands
With empty hands

Sittin' waitin', bury all the love
Open my chest, watch it all come undone
Said I'm special, always number one
Hold your horses, there's no need to run

It's behind me now

Why do I feel that you never understand
Tell me the point in makin' any plans
'Cause everything in love is killin' me
Tryin' to learn how to live with empty hands
With empty hands
