

# Forever Home

Ella Vos

Empty heart in my chest  
I was looking for another life  
Losing hope, losing faith  
Couldn't see you on the other side

You've been down a million paths  
Tryna get to me  
And you finally brought me back  
From my lonely dreams

Cause where you go you know I will follow  
Leave it all behind if you say so  
Valleys to rivers, and everything in between  
You're my forever home

Thank god you're therapist  
Said that you should take me on a date  
And thank god that you listened  
Cause I'm starting to believe in fate

You've been down a million paths  
Tryna get to me  
And I was hoping this could last  
Like an endless dream

Cause where you go you know I will follow  
Leave it all behind if you say so  
Valleys to rivers, and everything in between  
You're my forever home  
My forever home  
My forever home  
My forever home

Thought it was too late for me  
Gave up all my energy  
Used to think I'd never be free  
I love how you hold me differently  
Rescued from my misery  
Cause of you now I believe

Cause where you go you know I will follow  
Leave it all behind if you say so  
Valleys to rivers, and everything in between  
You're my forever home  
My forever home  
My forever home  
My forever home

My forever home  
My forever home  
My forever home
