

# Mountain

Ella Vos

I can hear the lion, calling in the dark  
Straight across the canyon, staring at my yard  
I can see the fire and water raining down  
You're running through the valley, tryna put it out

You know it's dangerous  
Living in loneliness  
I got a cloud for us  
Come find me now  
Won't tell 'em where you're hiding out

My body is a mountain  
Follow me to heaven  
My body is a mountain  
My body is a mountain  
I can be your wilderness  
Save you from Los Angeles  
My body is a mountain

Echoes on the hillside, creatures in the night  
Feel you getting closer, see it in your eyes  
We could live forever, immovable and pure  
Anything you ask for, tell me and it's yours  
(Won't tell 'em where you're hiding out)

My body is a mountain  
Follow me to heaven  
My body is a mountain  
My body is a mountain  
I can be your wilderness  
Save you from Los Angeles  
My body is a mountain  
My body is a mountain  
Ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah  
My body is a mountain

You know it's dangerous  
Living in loneliness  
I got a cloud for us  
Come find me now  
Won't tell 'em where you're hiding out

My body is a mountain  
Follow me to heaven  
My body is a mountain  
My body is a mountain  
I can be your wilderness  
Save you from Los Angeles  
My body is a mountain  
My body is a mountain  
Ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah, ah  
My body is a mountain
