

Will you take me as I am?
Draw the clove sign in your hand
Across the highway there's a girl I used to be
Swim in the deep end, not afraid of anything

I feel like an ocean, washing away
Gasping for air now under the wave
You're pulling me deeper, deeper till I'm broken
I feel like an ocean, washing away
Drown in the silence, nothing to say
You're pulling me deeper, deeper till I'm broken

Find some creatures you and I
In my future, is it bright?
Do you feel better knowing that I'm far away?
Maybe it's alright living with the memories

I feel like an ocean, washing away
Gasping for air now under the wave
You're pulling me deeper, deeper till I'm broken
I feel like an ocean, washing away
Drown in the silence, nothing to say
You're pulling me deeper, deeper till I'm broken

Is it real hard, is it real hard
You pulling me deeper, deeper till I'm broken
