

# Pavement

Ella Vos

Now we're living in the moment  
All dressed up to go nowhere  
Beaches empty by the ocean, ah  
No more talking, no more yelling  
Kids are playing in the yard  
Gotta stay in, stop the spreading, ah

Who's gonna pour the pavement  
And man the stations  
After all the people go home, oh go home  
Who's gonna fight the wars  
Put out the fires  
After all the people go home, oh go home, oh

After all the people go home

Empty skies, crystal waters  
No use for the 101  
All the wild coming home, ah  
In the city, it's so quiet  
Eagles flying in the air  
Flowers growing in slow motion  
Ooh

Who's gonna pour the pavement  
And man the stations  
After all the people go home, oh go home  
Who's gonna fight the wars  
Put out the fires  
After all the people go home, oh go home, oh

After all the people go home  
After all the people go home  
After all the people go home, oh go home, oh
