

Superglue

Ella Vos

Peeling off the wall again
Kill the vibe, I ruin the night
Lost before I begin
The more I try, I fall behind

But you come like a blessing
There's no need for begging
You got me for life

Ooh you know that you're my superglue
It's better when I'm holding you
Honey you're the only one I need
Ooh baby c'mon heal my wounds
You know that you're my superglue
Honey you're the only one I need

Diggin' up the seeds again
Dirty hands, outta plans
Endless maze, I pretend
I'm not afraid it'll last

'Cause you come like a blessing
There's no need for begging
You got me for life

Ooh you know that you're my superglue
It's better when I'm holding you
Honey you're the only one I need
Ooh baby c'mon heal my wounds
You know that you're my superglue
Honey you're the only one I need
Honey you're the only one I need

Now I'll never break apart
You fill the cracks in my heart

Ooh you know that you're my superglue
It's better when I'm holding you
Honey you're the only one I need
Ooh baby c'mon heal my wounds
You know that you're my superglue
Honey you're the only one I need
Honey you're the only one I need
Honey you're the only one I need
