

# The Wash

Ella Vos

Hallelujah, now I'm stuck here with you  
Whole world's closing, everywhere empty rooms  
Kill the panic, cut the lights  
Pretty soon we'll be alright

Time's up, we know we got  
To wash the day off  
Lie down, we're up, oh  
Baby we can live forever in this house, ohh  
In the glow, in the wash

In the glow, in the wash, in the wash  
In the glow, in the wash, in the wash  
In the glow, in the wash, in the wash  
In the glow, in the wash, in the wash  
Baby we can live forever in this house, ohh  
In the glow, in the wash  
Yeah

Ships are sinking, watching the colors change  
Livin' in shadows, everyone's tucked away  
Mmhmm kill the panic, cut the lights  
Pretty soon we'll be alright

Time's up, we know we got  
To wash the day off  
Lie down, we're up, oh  
Baby we can live forever in this house, ohh  
In the glow, in the wash

In the glow, in the wash, in the wash  
In the glow, in the wash, in the wash  
In the glow, in the wash, in the wash  
In the glow, in the wash, in the wash  
Baby we can live forever in this house, ohh  
In the glow, in the wash  
Yeah
