

## Out Yonder

Elle King

Who's doin' lines  
Who's huffin' glue  
Who's got a wife  
And girlfriend too

Who's in a bind  
Who's screws are loose  
Who's sippin' wine  
While the kids are at school

Who's stirs the pot  
Who's in your ear  
And who's bad idea  
Was it to bring it 'round here

It's all this  
He said and she said  
Always two sides and the truth  
There's so much shit around these parts  
You gonna get some on your boots  
It's just a straight line down the grapevine  
Gotta rip it right up at the roots  
You can keep your mouth runnin'  
Hell Jesus might love ya'  
But that don't mean I do  
So take your front page, two faced, petty ass drama  
Leave it out, leave it out, leave it out yonder

Who's gained a few pounds  
Who spends too much  
Who got knocked out  
Who got knocked up

Who's in hot water  
With the IRS  
Who's granddaddy died  
Still cashin' his checks

Who's boss don't know  
'Bout a felony  
And why the hell  
You tellin' me all this

He said and she said  
Always two sides and the truth  
There's so much shit around these parts  
You gonna get some on your boots  
It's just a straight line down the grapevine  
Gotta rip it right up at the roots  
You can keep your mouth runnin'  
Hell Jesus might love ya'  
But that don't mean I do  
So take your front page, two faced, petty ass drama  
Leave it out, leave it out, leave it out yonder

Keep it movin'  
Keep it movin'

Keep it movin'  
Leave it out yonder

It's all this  
He said and she said  
Always two sides and the truth  
There's so much shit around these parts  
You gonna get some on your boots  
It's just a straight line down the grapevine  
Gotta rip it right up at the roots  
You can keep your mouth runnin'  
Hell Jesus might love ya'  
But that don't mean I do  
So take your front page, two faced, petty ass drama  
Leave it out, leave it out, leave it out yonder  
Leave it out yonder  
Leave it out yonder
