

# Told You So

Elle King

No I don't wanna talk about it  
Leave me alone  
I don't want to think about it  
He's got a new girl up there in his home

I bet they stayed up all night long  
On the telephone  
He used to love me like that  
Everybody gonna hit me with the "I told you so"  
I never wanna hear "I told you so"  
I never ever wanted to let you go, ey!

(Can you hear me callin'?)  
Ph, you've got to come home  
(All the people talkin')  
What's this I hear about some new girl?  
It's time we got our shit together  
I don't wanna hear no  
I don't wanna hear no  
I don't wanna hear "I told you so"

No I don't wanna talk about it  
Leave me alone  
I don't want to think about it

He's got a new girl, yeah, yeah I know

Bet they stayed up all night long  
On the telephone  
I wish you loved me like that  
Everybody gonna hit me with the "I told you so"  
I never wanna hear "I told you so"  
I never ever wanted to let you go, ey!

(Can you hear me callin'?)  
Boy, you've got to come home  
(All the people talkin')  
What's this I hear about some new girl?  
It's time we got our shit together  
I don't wanna hear no  
I don't wanna hear no  
I don't wanna hear "I told you so"

No I don't wanna talk about it  
Leave me alone  
I don't wanna think about it  
He's got a new girl, yeah, yeah I know
