

# Can You Touch

Elley Duhé

Hit the drop, throw it right next to the floor  
Every time we get too low  
Man fuck a civil war, love's what we're here for  
And we don't turn back

We move resonate, never get through the dark night  
We luminesce from the inside out and fight back

We don't break, we just groove  
We don't lose, hit the fuse  
And we'll do what we gotta do  
And we're down, but we're up  
In the stars, way on up  
In the stars, way on up  
I don't break, I just groove  
I don't lose, hit the fuse  
And I'll do what I gotta do  
And I'm down, but I'm up  
In the stars, way on up  
In the stars, way on up

Can you touch, can you touch?  
Can you, can you, can you touch?  
Can you, can you touch?  
Can you touch, can you touch?  
Can you, can you, can you touch?  
Can you, can you touch?  
Can you touch?  
Can you touch?  
Can you touch?  
Can you touch, can you touch?  
Can you, can you, can you touch?  
Can you touch?

Killer bees, my whole team  
We on fire, we disease  
We done got the Martians, Martians  
Fuel up quick then we roll a spliff  
Cruisin' through that nebulous  
Up, up out the solar, bitch  
Up, up out the solar, bitch

We don't break, we just groove  
We don't lose, hit the fuse  
And we'll do what we gotta do  
And we're down, but we're up  
In the stars, way on up  
In the stars, way on up  
I don't break, I just groove  
I don't lose, hit the fuse  
And I'll do what I gotta do  
And I'm down, but I'm up  
In the stars, way on up  
In the stars, way on up

Can you touch, can you touch?  
Can you, can you, can you touch?

Can you, can you touch?  
Can you touch, can you touch?  
Can you, can you, can you touch?  
Can you, can you touch?  
Can you touch?  
Can you touch?  
Can you touch?  
Can you touch, can you touch?  
Can you, can you, can you touch?  
Can you touch?
