

CHAMPION

Elley Duhé

All eyes on me
I got a machine mentality
With my body, God calls me
El go fire on the beat
I ride out on the beat
Came for the trial over the beat
I just can't lose out on the beat
They've been starving
They want me
They want God yea yea

Gotta be able to knock down the walls
Harness the fire and take 'em all to war
Can't keep me down 'cause I'm always moving forward
Let's just make sure that it's understood

I'll never show no signs of letting up
It's in blood I'm a champion
I-no, I'll never ever give up
I got the heart of the champion
And I know the sacrifice
Is all I know
All I know oo ooo oo ooo

World falls on me
I gotta machine mentality
I'm on my spirituality
El go fire make 'em see
I ride out to the beat
I got visions I got dreams
Know what it takes I take the lead
They've been starving
They want me
They want God yea yea

Gotta be able to knock down the walls
Harness the fire and take 'em all to war
Can't keep me down 'cause I'm always moving forward
Let's just make sure that it's understood

I'll never show no signs of letting up
It's in blood I'm a champion
I-no, I'll never ever give up
I got the heart of the champion
And I know sacrifice
It's all I know
All I know oo ooo oo ooo
