

FEVER

Elley Duhé

Call me on the dark side, running through the moonlight
Running in the midnight, yeah
Dancing to the flames, I wanna stay high
I wanna stay high through the highway
I just tell wanna tell lies to your green eyes
Green eyes, okay
Ranging to the midnight, midnight
'Til the sun don't rise again

I'm feeling like fever, running through the night
Tear you open, tear you open, see what's inside
I'm feeling like fever, baby you know I'm right, I'm right

We don't got no consequences, yeah
We tear shit up 'cause we just don't feel the end
Feeling like fever, yeah
We ain't got no consequences, yeah
We burn it now like Ceasar and we'd do it again
Feeling like fever, fever yeah

What lurks underneath the surface?
Is it worth it? I'm nervous
Swimming into the deep blue, deep blue secret

I'm feeling like fever, running through the night
Tear you open, tear you open, see what's inside
I'm feeling like fever, baby you know I'm right, I'm right

We ain't got no consequences, yeah
We tear shit up 'cause we just don't feel the end
Feeling like fever, yeah
We ain't got no consequences, yeah
We burn it now like Ceasar and we'd do it again
Feeling like fever, fever yeah
