

MADNESS

Elley Duhé

I do some of my best work at night
Ride through the city like I'm Batman, dark knight
I don't take losses
Approach me with caution I seen the worst in the best of 'em all

Everything inside
Never let a thing inside
Hit me like a meteorite
Hit me like a meteorite

You had me inside of the magic
Hope I don't die from the madness
Favorite city high and I'm laughing
Favorite city high and I'm laughing

You had me inside of the magic
Hope I don't die from the madness
Favorite city high and I'm laughing
Hope I don't die from the madness

3-60 and they got me twisted b
I was building up destroy 'em all
And now I took the fleet
Yea a whole lot of shit they talking can't be talking see
I was dark alley moving I was dark alley scheming

Everything inside
Never let a thing inside
Hit me like a meteorite
Hit me like a meteorite

You had me inside of the magic
Hope I don't die from the madness
Favorite city high and I'm laughing
Favorite city high and I'm laughing

You had me inside of the magic
Hope I don't die from the madness
Favorite city high and I'm laughing
Hope I don't die from the madness
