

# REBORN

Elley Duhé

There was a time you were all I desired  
You were the passion and the flames and the fire  
I overcomin' and I'm shining brighter  
My soul yearns to be higher and higher

So farewell  
I wish you hell  
I find that loneliness  
Is better for my health  
I hope you never find someone else  
So they never have to feel what I felt

Today I am reborn  
Today I am reborn  
The darkness crucified  
I step into the light

I reach down deep inside  
To where my demons hide  
I step into the light  
I feel like  
I feel like  
I am pure

There was a time you were all I desired  
You were the passion and the flames and the fire  
I overcomin' and I'm shining brighter  
My soul yearns to be higher and higher

Where I'm trying to go  
You can't go  
You won't like it there  
Where lies go to die

Yea say no more shadows no no more shadows  
I am reborn  
Yea no more shadows no no more shadows  
I am reborn

So farewell  
I wish you hell  
I find that loneliness  
Is better for my health  
I hope you never find someone else  
So they never have to feel what I felt

Today I am reborn  
Today I am reborn  
The darkness crucified  
I step into the light

I reach down deep inside  
To where my demons hide  
I step into the light  
I feel like  
I feel like  
I am pure

There was a time you were all I desired  
You were the passion and the flames and the fire  
I overcomin' and I'm shining brighter  
My soul yearns to be higher and higher
