

WHEREVER YOU ARE

Elley Duhé

Forever in my dream
Forever you're the wind beneath my wings
Forever in my being
Forever running through lake forest streets forever forever

Ooh on them cold nights
I hold the memories
Closed eyes it's like you're with me
On the other side sending signs that you'll never leave

Wherever you are
Wherever you are
I know that you're never too far
I look at the stars I see in the dark
I see you with my heart
Always know
You're always with me
Always feel me dancing in your arms
Wherever you are
Wherever you are
I know you're never too far

Too far

Carry you with me
Hear you still singing
Across the universe
I feel your heart beating
Did it get stronger
Wear you like armor
I always feel safe when I know you're next to me

Ooh on them cold nights
I hold the memories
Closed eyes it's like you're with me
On the other side sending signs that you'll never leave

Wherever you are
Wherever you are
I know that you're never too far
I look at the stars I see in the dark
I see you with my heart
Always know
You're always with me
Always feel me dancing in your arms
Wherever you are
Wherever you are
I know you're never too far
