

# Little Dreams

Ellie Goulding

If a plane crashed into my room  
I wouldn't even flinch,  
I couldn't try to move  
My mind is on you  
My mind is on you

If the streetlight smashed above me  
I wouldn't move an inch,  
Turn the glass into stars  
and your face is the moon  
And the night turns to you  
cos my mind is on you

You've got me caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything  
But so what I can take anything

I can take anything,  
I can take anything

If electric charges shock me,  
I'd smile and fold my arms,  
I'd feel nothing new,  
because my mind is on you

My mind is on you

And if the floor gave way to my shoes  
I wouldn't try to fly  
I can't explain what it would feel,  
I just feel you

I always feel, always feel you

You've got me caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything  
But so what I can take anything

Your the heat in my bones  
But you break me with stones  
You're the heat in my bones  
But you break me with your stones

If a plane crashed into my room  
I wouldn't even flinch  
I couldn't try to move  
My mind is always on you

My mind is always on you

Caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything  
But so what

Even when I'm caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything  
But so what I can take anything
