

# Temptation

Ellie Goulding

Voice like velvet  
Skin like silk  
Pale blue eyes  
Swear they could kill  
LSD and lemonade  
Your sweetness makes my body ache

You're in the car I'm driving  
Someone cut the brakes  
Got that California dreaming  
Never wanted someone like I want you, babe  
And I don't know if I can take this

Temptation  
Gets deeper every time  
Confession  
I can't get you outta my  
Imagination  
You're heaven in my mind  
Tell me will we make it real

Temptation  
Temptation

Wanting you  
Forbidden fruit  
If your lover only knew  
For just one touch I'd be a thief  
(You make me wanna)  
Steal your heart and kill the dream

You're in the car I'm driving  
Someone cut the brakes  
Got that California dreaming  
Never wanted someone like I want you, babe  
And I don't know if I can take this

Temptation  
Gets deeper every time  
Confession  
I can't get you outta my  
Imagination  
You're heaven in my mind  
Tell me will we make it real

Temptation  
Gets deeper every time  
Confession  
I can't get you outta my  
Imagination  
You're heaven in my mind  
Tell me will we make it real

I can't quit  
The thought of you on my lips  
It's a sin  
But only if we give in

You say it's not right  
Then tell me why  
You're heaven in my mind

Oh

Temptation  
Gets deeper every time  
Confession  
I can't get you outta my  
Imagination  
You're heaven in my mind  
Tell me will we make it real

Temptation  
Gets deeper every time  
Confession  
I can't get you outta my  
Imagination  
You're heaven in my mind  
Tell me will we make it real  
Ooh
