

Always

Ellie Holcomb

Over the hills and through the sorrow
High up above and down below
There's not a place with you I wouldn't go

Life with you is a grand adventure
Summer and winter every year
Laughing with you and drying every tear

When you are lost, I'll always find you
Whisper my Name, I'll be right here
Just like a map, I'll always guide you
Safe in my arms, I'll always keep you near
Always

How many times do I have to tell you?
Nothing could make me love you more
Love is a game that we play and don't keep score

Over a rainbow and through the forest
Through any storm that comes our way
I'm by your side, you don't have to be afraid

When you are lost, I'll always find you
Whisper my Name, I'll be right here
Just like a map, I'll always guide you
Safe in my arms, I'll always keep you near
Always

I'll keep you near always

Just like the moon and stars and sunrise
When you're asleep or you're awake
I'll be the light that shines on you always

When you are lost, I'll always find you
Whisper my Name, I'll be right here
Just like a map, I'll always guide you
Safe in my arms I'll always keep you near
Always

I'll keep you near always
Always
