

## Bones

Ellie Holcomb

I got a heart that burns, baby  
I got a tree that yields fruit  
I got a clock that keeps on ticking  
I got a ship that sails true

I got a song that I been singing  
I got a mind that fights fair  
I got arrows I been slinging  
I am a game of truth or dare

We got time we got bones  
We got spark down in our lungs  
Cheating time cheating death  
Every time we take a breath  
We don't have to do it alone

You are a letter that I've been writing  
You are a glass of chardonnay  
You are a prayer that I've been praying  
You are my favorite birthday cake

You are a book that I've been reading  
You are a trumpet a mile away  
You are an airplane I've been flying  
You are the actor you are the play

We got time we got bones  
We got spark down in our lungs  
Cheating time cheating death  
Every time we take a breath  
We don't have to do it alone

You are the fool that chases the moon  
You are wrong, you are right  
You are the hand with the lightning striking  
You are the dark you are the light

We got time we got bones  
We got spark down in our lungs  
Cheating time cheating death  
Every time we take a breath  
We don't have to do it  
We don't have to do it  
We don't have to do it alone
