

He Loves Us

Ellie Holcomb

When we're lost, God is light
He'll be with us through the night
Cause He loves us

When we're sad, and need to cry
He will sing a lullaby
Cause He loves us

From the rising of the sun
After every day is done
Even through the dark of night
God is with us all the time

When we fall and make mistakes
God will cover us with grace
Cause He loves us

Even if we run away
He'll come find us just to say
How He loves us

From the rising of the sun
After every day is done
Even through our darkest night
God is with us all the time

Everything that's on the earth
Land and sky, and flowers, & birds
They're all singing God's love song
And we can sing along

Every moment, Every day
Everywhere in every way
God loves us
