

# Falling Down And Getting Hurt

Elliot Moss

Everything's grey that's in the past  
I dream in strokes of black  
My blue skies went overcast  
Zoom in and pull the camera back  
I feel underwater  
Like a sunken ship

Ooh, I'm falling down  
Ooh, I'm getting hurt

But I get back up, I get back up  
Yeah I get back up, I get back up again  
I get back up again  
But I get back up, I get back up  
Yeah I get back up, I get back up again  
I get back up again

Put her in drive and hit the gas  
You can fight about it  
Or you can speed away  
Turn up the radio full blast  
You can think about us  
Or you can drown me out

Ooh, I'm falling down  
Ooh, I'm getting hurt

And I get back up, I get back up  
Yeah I get back up, I get back up again  
I get back up again  
And I get back up, I get back up  
Yeah I get back up, I get back up again  
I get back up again
