

How I Fell

Elliot Moss

I don't wanna tell you how I fell
Cause then you're gonna think it's your fault
But I'm scattered all over the room
Hanging in the air like aerosol

If I peel back my body
To show you my bones
Would it make you believe me?
My heart cleansed with cheap alcohol

'Cause I think I know it somehow
Somehow deep down
A supernatural motion
Is pushin' me around
I think I worked it all out
But there's no-one to blame
What I'm sayin's up until now
You've had no skin in our game
What I'm sayin's up until now
You've had no skin in our game

I don't wanna tell you how I fell
One foot at a time
Into a bedroom like quicksand
Pillows up to my waistline

So if I peel back my body
Would you hold onto your stones?
And would it make you believe me?
Or do I climb out alone?

'Cause I think I know it somehow
Somehow deep down
A supernatural motion
Is pushin' me around
I think I worked it all out
But there's no-one to blame
What I'm sayin's up until now
You've had no skin in our game
What I'm sayin's up until now
I've hid your skin from our game

I don't wanna tell you how I fell
Cause then you're gonna think it's your fault
But I'm scattered all over the room
Hanging in the air like aerosol
