

# I Can't Swim

Elliot Moss

Feel like I woke up from a bad dream  
Where nobody could hear me  
I open my mouth and I can't scream  
This river's carrying me downstream

And I can't swim  
Cause I can't move my limbs  
Oh, I can't swim  
And here comes the part where I drown

Just when I finished standing up all the  
Dominoes in my head  
Yeah they're standing up again  
They were standing up again  
And you pushed one at the end

I fear I'm fading away  
My skins infected with a light grey  
I can feel my mind decay  
My thoughts are on a time delay

Oh, I can't think  
My limbs paddle out of sync  
No I can't think  
And here comes the part where I drown

Just when I finished standing up all the  
Dominoes in my head  
Yeah they're standing up again  
They were standing up again  
And you pushed one at the end

Just when I finished standing up all the dominoes  
You pushed one at the end  
You pushed one at the end  
You pushed one at the end  
You pushed one at the end

Just when I finished standing up all the  
Dominoes in my head  
Yeah they're standing up again  
They were standing up again  
And you pushed one at the end
