

Next Year's Light

Elliot Moss

Gotta feeling I won't have enough time
Locking my eyes
Into next year's light
Heard every word
But never saw the signs
Now everything I believe Is takin' me for a ride

And I hope
For something I won't ever have
A love without a road
One that stays right on the tracks

Whoa

But a change is coming
Yeah a change is coming
Yeah a change is coming

I can feel a change is coming
Yeah a change is coming
And I can't hide from it

Stare at the ceiling
Until I see the sky
And fill up my eyes
With next year's light

Somehow this silence
Shouldn't be so quiet
While everything believe
Fades away before my eyes

'Cause a change is coming
Yeah a change is coming
Yeah a change is coming
I can feel a change is coming
Yeah a change is coming
And I can't hide from it

'Cause a change is coming
Yeah a change is coming
Yeah a change is coming
I can feel a change is coming
Yeah a change is coming
And I can't hide from it
Gotta feeling I won't have enough time

Locking my eyes into next year's light
But this moment
Is a different kind of bright
A camera flash
Never lasts
But I've got it all in black and white

Whoa

But a change is coming

Yeah a change is coming
Yeah a change is coming
I can feel a change is coming
Yeah a change is coming
And I can't hide from it

'Cause a change is coming
Yeah a change is coming
Yeah a change is coming
I can feel a change is coming
Yeah a change is coming
And I can't hide from it
