

## VCR Machine

Elliot Moss

They live inside a VCR Machine  
Twirling round and round atop the heads  
Tired of watching all the same damn things all the time  
Dialogue, they had memorized all the lines

If you try to make it last  
Then it will  
But they ran the tapes to fast  
And skipped by everything  
They skipped by everything

Lazy people sleeping through the loneliness

Haven't got the guts to make a change  
Twirling round and round atop the heads thinking  
It's all the same, it's all the same

Covering the cuts with our hands  
Don't forget to smile, if you can  
This is bad for us  
This is bad for us  
This is bad for us  
This is bad for us  
This is bad for us
