

Without The Lights

Elliot Moss

Oooh, call off the dogs
We found her in the woods
That girl never stood a chance
After that dark dance with the waves

She waltzed her way into the sea
Baby take me with you please
I don't know what I'd do
If you leave

Watch all the torches go out
One at a time
The world gets darker every night
Cause I see it all
Without the lights

She waltzed her way into the sea
Baby take me with you please
I don't know what I'd do if you leave
She waltzed her way into the sea
Baby take me with you please
I don't know what I'd do if you leave

Reach up your hand to pull me down. Down
Pull me down. Down. Down...
Pull me down

Oooh call off the dogs, we found her in the woods
