

# What Can I Do Right

Elliott Yamin

I heard you were with somebody else  
There's no way I can pretend to be myself  
When you're giving it away to somebody new  
Nobody's gonna treat you like I do  
And it's killing me to know  
That he's making love to you

So please let me back in your heart  
Let me back in your life  
Tell me what it is I did wrong  
So I can do right  
Cause I'm begging you please  
Got me down on my knees  
All I want is to make you happy  
So baby won't you  
Tell me what is I did wrong  
So I can do right

I never knew love could hurt like this  
In the blink of an eye, you and I, we tried but somehow we missed  
And now you're giving it away to somebody new  
Nobody's gonna treat you like I do  
And it's killing me to know  
That he's making love to you

So please let me back in your heart  
Let me back in your life  
Tell me what it is I did wrong  
So I can do right  
Cause I'm begging you please  
Got me down on my knees  
All I want is to make you happy  
So baby won't you  
Tell me what is I did wrong  
So I can do right

What can I do right?  
What can I do right?  
What can I do right?  
What can I do right?

Cause I'm begging you please  
Got me down on my knees  
All I want is to make you happy  
So baby won't you  
Tell me what is I did wrong  
So I can do right

What can I do right?  
What can I do right?  
What can I do right?  
What can I do right?
