

BOOM YOUR HEAD

Elliphant

Boom your head up
Boom boom boom your head up [x3]
Boom your head up

May be bit hairy and my boobs air big
Not down with the numbers but they drowning me
I blaze a bit bigger than most of y'all
See me city bird eat na, happy pill na
Feel like am a dirt, it challenges me
So all you clean haters na fit you see
Ugh! Na fit you see! Ugh ugh!

All you freaky people out there boom your head up
Do whatever fit for you, do it like a rock
All you freaky people out there boom your head up na
Boom your head up
Boom boom your head up

May suck at mingle man I piss away
All this false moments in the industry
I look for a UFO every moment I get
Rather believe, rather then you who forget
To look for magic in all possibilities
Life is much bigger than we could ever be
Who are you to deny misery
Right under your skin when will you show it to me

Boom your head up
Boom boom boom your head up
Boom your head up

Boom your head up
Boom boom boom your head up [x3]
Boom your head up
Boom your head
