

Could It Be

Elliphant

Something's been growing
In my kitchen
I've been scared for weeks
Shoving the noises
I can't sleep, man
Could you tell me what it is?

Could it be your toothbrush (Could it be, could it be)
Could it be me dirty wash (Could it be, could it be)
So could it be the milk you left
Last time you came by
Or could it be the pasta we ate (Could it be, could it be)
And made too much of like months ago
Or could it be the pancakes you made me on my birthday

Something is dying
In my closet
I can't wear a thing
(what is what, what is what, what the fuck now?)
What the fuck is what crawl around
Creepy feeling we're gonna fall
Dirty bed so I'm on the ground
Me volonté

Could it be your toothbrush (Could it be, could it be)
Could it be me dirty wash (Could it be, could it be)
So could it be the milk you left
Last time you came by
Or could it be the pasta we ate (Could it be, could it be)
And made too much of like months ago
Or could it be them pancakes you made me on my birthday

Could it be all that you left here?
It's in the world so won't save me
Like a monster in my head, a ghost in my bed
Just a glance and then you're on my skin
Could it be you will forget me?
Still got dreams but I'm nothing
You got no monster in your head, no ghost in your bed
Got some new blood pumping there instead

Could it be your toothbrush (Could it be, could it be)
Could it be me dirty wash (Could it be, could it be)
So could it be the milk you left
Last time you came by
Or could it be the pasta we ate (Could it be, could it be)
And made too much of like months ago
Or could it be them pancakes you made me on my birthday

So tell me could it be (Could it be, could it be)
Could it be me? (Could it be, could it be)
Could it be me? (Could it be, could it be)
Tell me could it be (Could it be, could it be)
Could it be me? (Could it be, could it be)
So tell me could it be (Could it be, could it be)
Could it be me? (Could it be, could it be)
