DUST

Elliphant

Don't mind me I'm but a flicker out here
Represent the lost and troubled souls out there
Everything was true what you heard about me
It was me yea I did it naw I'm not sorry
Something's wrong don't belong down here with the mob
I identify myself with a jungle frog
Falling free of the roof down your pretty head
You be botox your face while I paint mine red
It's a war

I pay my prayers to nature I'ma bless them bud
Evolution getting ready getting close to god
Now I'm a snowflake melting on your purple tongue
You but a cilia burning on my coughing lung
I be that gray hair growing in your baby face
Yea I got wasted but I puke with grace hmm
"Yea I actually puke real pretty"

We make it dust
Make it dust now people make it dust
Make it dust now pussy make it dust
Make it dust now dogs make it dust
Dusty angels in the center of the mosh pit
Make it dust
Make it dust now people make it dust
Make it dust now pussy make it dust
Make it dust now dogs make it dust
You're my wild lotus flower in the center of the mosh pit

I keep chewing on you, chewing on you hubba bubba
Dry people I be drippin' you in luba luba
Diving deep into the shit I'm a scuba scuba
You find me sippin' on my rum on a stoopa stoopa

I'm a survivor
Cockroach Kackelacka
Kill me and I go multiply on ya
This is some trippy dumb matrix shit
Shits popping keep jumping keep breaking it
Wake the dragon
We keep falling apart
Hear the BPM from a billion broken hearts
I hear em crunchin', 'crackin under my feet
Long live the ugly
Long live the free

We make it dust
Make it dust now people make it dust
Make it dust now pussy make it dust
Make it dust now dogs make it dust
Dusty angels in the center of the mosh pit
Make it dust
Make it dust now people make it dust
Make it dust now pussy make it dust
Make it dust now dogs make it dust
You're my wild lotus flower in the center of the mosh pit

I keep chewing on you chewing on you hubba bubba
Dry people I be drippin' you in luba luba
Diving deep into the shit I'm a scuba scuba
You find me sippin' on my rum on a stoopa stoopa
I keep chewing on you chewing on you hubba bubba
Dry people I be drippin' you in luba luba
Diving deep into the shit I'm a scuba scuba
You find me sippin' on my rum on a stoopa stoopa
