

# Family Tree

Elliphant

How I hope they don't see  
I had a beer and a boiled egg for breakfast  
I'm coming, not just me  
But brought a demon, jamming in between us

Disconnected, I'm  
Cloning gravity, yeah  
Not affected by  
The gears around me, no

All I see today is the big old sky now  
While I hide away in my big old high  
While I hide away in my big old high  
Eh, eh, eh [?]

Family tree, it's just my  
Family tree [?]  
Family tree, it's just my  
Family tree, family tree

I just hope it don't break  
The branch I'm growing [?] in flames  
I feel my world shake  
I'm barely rooted, drinking the acid rain

Disconnected, I'm  
Cloning gravity, yeah  
Not affected by  
The gears around me

Nowhere to go, in the big old sky now  
Just a big black hole and a big old high  
It's my big old high

All I see today is the big old sky now  
While I hide away in my big old high  
While I hide away in my big old high  
Eh, eh, eh [?]

Family tree, it's just my  
Family tree [?]  
Family tree, it's just my  
Family tree, family tree

Disconnected, I'm  
Cloning gravity, yeah  
Not affected by  
The gears around me

Just a big black hole and a big old high

All I see today is the big old sky now  
While I hide away in my big old high  
While I hide away in my big old high  
Eh, eh, eh [?]

Family tree, it's just my

Family tree [?]  
Family tree, it's just my  
Family tree, family tree
