

## Juice Me

Elliphant

Looking for the light in the dark of the bender  
Little one, rest, I'm your rainbow defender

Package full of snakes, post it back to the sender  
Walking on my hands 'cause my legs don't work  
Feel like a champ, catch up on my [?]  
Snuggle up [?] close [?] sweet words  
Buckle up, up your nose, it's a sweet water pearl

Get polished, you smell like vomit  
True knowledge is to never know shit  
Get humble, you might stumble  
On your own facts that never meant shit

Techno frog looking for some love in the green  
Lick the back looking like it's not what it seems  
Think [?] evolution happening to steam  
Was it real, was it happy, what's ahead, what's the dream?  
Looking to the moon 'cause the sun don't shine  
[?] rotten time  
Don't know how it happened, think I looked behind  
'Cause I'm stoned, fucking stoned, right outta my mind

Juice, juice, juice me up your blender  
Mix me up with cocoa water  
Take me back to [?]  
Take me back to the roots  
Roots, roots, roots, my only answer  
Shine me up with cocoa butter  
Going out to waste my summer  
Take me back to the roots

Back to the roots  
Back to the roots  
Back to the roots  
Back to the roots  
Back to the roots  
Back to the roots  
Back to the roots  
Back to the roots  
Back to the roots  
Back to the roots
