

# Lick Me

Elliphant

Have you waited for long  
I've been crawling around  
Trying find a way to walk through these godless times  
Learning my lesson  
By studying my damn depression  
While I escape society  
In these material times, mmh  
Yeah

Lost who I was, deep in the vices  
Still in a vapor when a new day arises  
Wounded and waisted, hungry life  
Starving for you, been starving for you, I'm

High in love  
Don't let me down  
Cuts and scars  
Lick me, lick me, lick me, I'm  
High in love  
Carry my crown  
Thorns and blood  
Lick me, lick me, lick me, I'm  
Coming for you  
Coming for me  
Blood moon the roof now  
Howling to the  
Crawl up into, yeah  
Into me, see (yeah)  
Lick me, lick me, lick me

Yeah, watch me fight for your life  
Let me run by your side  
Tracking down the mystery in these godless times  
Dark matter presence  
But we be sensing the essence  
It's a purpose we aching for  
In egotistical times

Found it inside when battling vices  
I will be ready for whatever arises  
Broken and gracious, hungry life  
Starving for you, been starving for you, I'm

High in love (I'm high in love)  
Don't let me down  
Cuts and scars  
Lick me, lick me, lick me, I'm  
High in love (I'm high in love)  
Carry my crown  
Thorns and blood  
Lick me, lick me, lick me, I'm  
Coming for you  
Coming for me  
Blood moon the roof now  
Howling to the  
Crawl up into, yeah  
Into me, see

Lick me, lick me, lick me

Come and let my love boil you (boil you)  
Come and let the love pour over me (pour over me)  
Hey, could you have me unfold, yeah (unfold, yeah)  
Could use to lose my control for a bit  
I go for nature shit  
I look for though loving, strong loving  
Meditation, out of flesh loving  
Rough touch, blood rush, lion style  
Come one with the rocks and the moon for a while, yeah  
Fingertip magic, do your trick on me  
Turn your key turn it good, till it click for me  
Rub me shiny, you might get a wish from me  
Do me real, hit me deep down spiritually
