

MINIMAL

Elephant

For them who got away
I send out the alarm
Gotta keep it real
Keep it animal
Throw it all away
Gimme the [?]
Gotta keep it real

Crooked mind behind straight faces
Judging eyes make em stone make em cold
Led me deeper into dark places
Felt the pain when my back got old
I took a yellow u took the blue
Me and my hummingbird out looking for crew
We live tribe down Silicon Valley
Wood bone bloodline chlorophyl fill me
Don't look back only one way forward
Don't look back baby one way forward
Lips keep moving telling love like a whisper
Stains from ur kisses on ma neck like a blister
Wail the moss grow slow in the forest
The richest earn from the week in the poorest
One man one shot locked up for Woath
Popo rock up smoke up and run

For them who got away
I send out the alarm
Gotta keep it real
Keep it animal

Laugh at the moon and live paradoxal
Close to the core keep it mini minimal

Trouble trouble, come and dance for me honey
I'm in the back of the hat with the bunny bloom
Baba down the whole smoke away mad hatta
Rolling up the blunts, pass em on maMatata
Life not rockin' storming in on ya
Let it come lead and take you over na
Wake up shake up travel hanuman style
Everybody need to be a monkey sometime
A mountain's on my back rose in my pocket
Balance on my mind yeah balance up n lock it
Time not fast but lost forever
Yeah I got away better late than never
It's all about to change, can we change together
Life at of passion gotta fuck me better
Laugh at the moon and live paradoxal
Close to the core keep it mini minimal

[illegible]

Laugh at the moon and live paradoxal

Laugh at the moon and live paradoxal
Close to the core keep it mini minimal
Laugh at the moon and live paradoxal
